

Assembly Instructions - Mini Display Stand

1. Starting with one side (A), attach all vertical supports (B, B-1 and E below).
2. With the second side (A), starting at the back (B and B-1), gently insert each vertical support (B, B-1, then E) into the aligning slot. On larger units, this may require extra assistance.
3. Add top (C), Ensure it sits flat, with all aligning pieces slotted properly.
4. Add Support (D) to all other tiers, by inserting into Back (B), then drop down and slide into position, ensuring all aligning pieces slotted properly.

- A. Tier Side, left or right (Left or right not identified in parts list, left pictured below)
- B. Back, used for the back of the unit, and first (bottom) front of the unit.
B-1 is only included on larger select units.
- C. Top, comes in Polyhedral, Round, or Solid
- D. Support, come in Polyhedral, Round, or Solid. Used on all tiers EXCEPT the top.
- E. Front Slot, used for all middle shelves to support both the shelf above and the shelf below it.
