

Assembly Instructions - S3 Arc Bridge Sample Kit

1. Build the middle structure (A through B).
 - a. Ensure part B is not cross linked, and is in the same slot on both sides.
 - b. Middle Truss A is not used with full width cross support (not included)
2. Attach Bridge Decking
 - a. SS Half Decking is designed to alternate with the narrow side on the middle truss.
 - b. SX Decking makes a great first piece when using SS or SX Decking

- A. Side piece - S3 Arc Bridge Truss
- B. Cross support - H1 Half Brace
- C. Bridge Deck - S1 Full Decking
